The contractor shall provide advance notice to City Staff if an after-hours inspection may be needed.          *** All excavations in boulevards shall be restored to original condition by contractor. If settlement occurs within a one-year period, the contractor will correct the entire affected area.          **** Excavations shall be maintained by contractor and refilled to a level condition prior to surface replacement.          ***** Tracing wire required on all water and sewer lines with access to wire at an outside cleanout or manhole.</p>		

**Acknowledgement and Certification of the Applicant and/or Owner:**

I/We understand this application constitutes our complete digging / utility permit application for the installation or repairing/replacing of infrastructure lines. I/We certify that the information we have provided to the Public Works Department is complete, accurate, and true to the best of our knowledge. Any intentional falsification or change in the information contained in this application, or to the attached information, shall cause: this application to become null and void and any approval granted herein to be revoked.

An applicant who is issued a digging / utility permit is bound, by acceptance of the permit, to commence the construction for which the permit is issued and is bound to finish said construction within six (6) months from and after said date of issue. Upon expiration of a permit, the holder shall make a new application for a new permit under the provisions of this chapter and shall otherwise go through the same procedure as required for issuance of the original permit. The fee for the second permit, as in the case of the original permit fee, shall be set by resolution by the City Council.
